

Upper Division and/or Graduate Courses (including research): 15 units

Course	Units	Quarter Taken

Other Courses (including preparatory)

Course	Units	Quarter Taken

Total Units

For this degree, a **minimum** of 36 units of graduate and upper division credits are required by the university followed by a written examination. Students who enter the MS program with deficiencies in soil science core disciplines may need to take additional courses to prepare for the Plan II examination.
